PROFESSIONAL EXPERIENCE / CONTINUED

The Video Games Studio (VGS)

Game Programmer · Beirut, Lebanon · June 2020 - Aug 2022

- Integrated PlayFab, third-party plugins, backend services and Unity UI; built configurable difficulty, progression and shop content with ScriptableObjects.
- Supported technical interviews, onboarding/mentoring, code reviews and Jira/Trello planning; contributed game design and gameplay/software-architecture documentation.
- Developed and released a Unity mobile runner: difficulty tuning, PlayFab competitions, monetisation and a competition timing/winner-data tool.
- Owned Adventure/Drawing architecture for a published Unity puzzle game: levels, progression, persistence and saving/replaying player-created content.
- Led an adventure prototype from GDD to character, ability and interaction systems; implemented touch input and collaborated with level design.
